

RFID i-Lock Contactless Electronic Lock for Lockers

Electronic lock for lockers which provides high security and comfort using convenient contactless RFID carriers (cards, wristbands, etc.).

It is an ideal solution for:

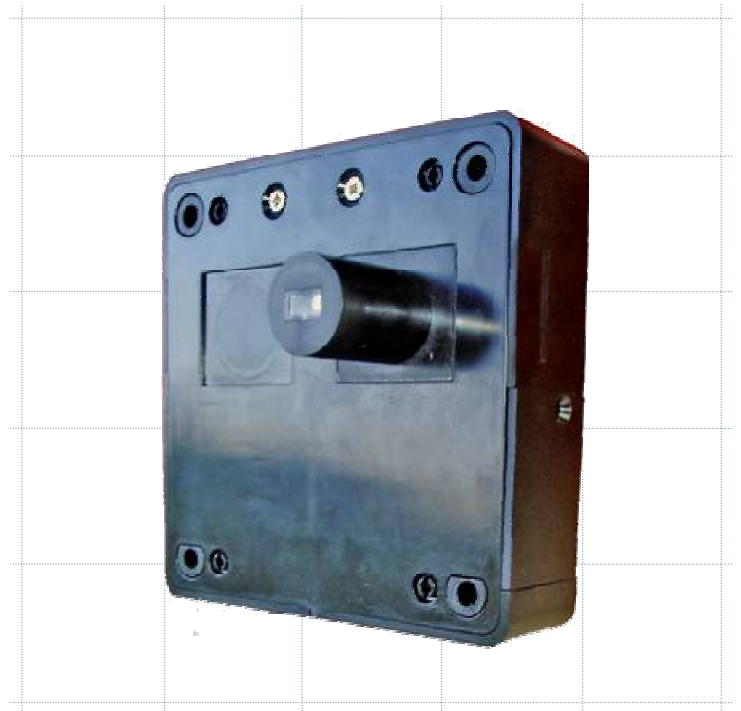

- Spa & Wellness centres
- Ski resorts
- Golf clubs
- Sports complexes

Description

- Contactless electronic lock: locking and unlocking by approaching the carrier to the proximity reader
- Autonomous system, no wiring
- 2 locker assignment options:
 - Numbered: Lockers and opening devices are identified and each card/tag only opens its matching locker.
 - Free: the user can occupy any free locker, and once occupied the locker cannot be opened by any other card. The user cannot use any other locker until the first one is released.
- Masters: possibility to create master cards to lock and unlock any of the lockers
