Minibars have the advantage of generating incremental revenue for the hotel whilst providing a service to the guest.

**The importance of ventilation:**

Minibars can be easily integrated into any type of furniture, as long as the appropriate ventilation space is allowed.

A minimum space of 400cm² is recommended to enable air circulation around the cooling unit.

**Quality and Environmental Certificates**

Manufactured under ISO standards, Onity Solution minibars comply with the highest quality and environmental requirements, including TÜV, CE, ETL and 2037/2000 regulations.

CF, HFC, HFC and PFC free, the elements the minibar uses for cooling are all 100% environmentally friendly.
