

## We develop integrated services and add *value* to our services

### Technical expertise

Our training program includes different sessions that are specifically adapted to all departments involved in the minibar operation. Our user-friendly "how to" manual is a practical and educational tool trainees can refer to after the session.

- Housekeeping
- Food & Beverage
- Front Desk operation
- Information Technology
- Hotel Management
- Engineering

## When service equals profit when *profit* exceeds your expectations

### Operation consulting

With the most important installed base of automatic minibars around the world and thanks to an exclusive partnership program with our clients, Bartech has been able to build an *extensive database* of minibar consumption data.

Combined with years of experience in the field, this broad database has allowed us to develop an unequalled *expertise for Minibar Operations* in luxury hotels.

We can offer on-site exclusive *Consulting Services* to our customers worldwide.

Such services result in a significant increase of the global financial performance of hotel minibar operations, and ensure the best guest satisfaction.
